Services of driver guide

Nairobi national park was established in 1946 and is the first National Park in Kenya. It is located approximately 7 kilometres south of the centre of Nairobi, Kenya's capital city, with only a fence separating the park's wildlife from the metropolis. Nairobi's skyscrapers can be seen from the park. Indeed, the proximity of urban and natural environments has caused conflicts between the animals and local people and threatens animals' migration routes. The 117 km² Nairobi National Park is unique by being the only protected area in the world with a variety of animals and birds close to a capital city.

As expected, the park is a principal attraction for visitors to Nairobi. Still, despite its proximity to civilization and relative small size for an African national park, Nairobi National Park boasts a large and varied wildlife population. Nairobi National Park Kenya's first ever National Park is a unique and unspoilt wildlife haven within sight of the city's skyline. Rhino, buffalo, cheetah, zebra, giraffe, lion and plenty of antelopes and gazelles can be seen roaming in this open plains country with a section of highland forest as well as stretches of broken bush country, deep, rocky valleys and gorges with scrub and long grass..

Approximately 10 minutes drive from the Nairobi City Centre. It houses some of the most celebrated collections of History, Culture and Art from Kenya and East Africa. The museum aims to interpret heritage of Kenya to stimulate appreciation and learning. This 2 Hour Excursion is a great eye opener into Kenya's culture & history. The museum holds a wide variety of most reputed collections relating to culture, history, and art hailing from East Africa and Kenya.

ELEPHANT ORPHANAGE, GIRAFFE CENTER, KAREN BLIXEN + KAZURI

ELEPHANT ORPHANAGE

The David Sheldrick Wildlife Trust is a small flexible charity, established in memory of David Sheldrick, famous Naturalist and founder Warden of Kenya's giant Tsavo East National Park in which he served from 1948 until 1976. You can visit between 11am and 12 noon every day, and see the elephants being fed and playing. In addition, there is a keeper who will give a talk about the elephants, where they came from, how they are getting on, and how some of the previous orphans are progressing. You can get really close to the elephants. The orphanage also takes in rhinos and so if you are lucky you will get the chance to see a young rhino.

KAREN BLIXEN MUSEUM

This tour visits the famous Karen Blixen Museum located on the outskirts of Nairobi on Karen road. Its history dates back to 1914, during the First World War, with the arrival of Karen Blixen from Denmark.

At the foot of Ngong Hills, Karen Blixen established herself as a farmer. After her departure in 1931, the suburbs retained the commemorative home of Karen. The Danish government donated the house and the surrounding land to Kenya after independence.

The aim here is to take an individual back in time, and provide a visual impression of each settler life in Kenya. Karen Blixen Museum has become a herb of various activities including private parties, research and visitation, from all over the world. The income so generated is used to refurbish and maintain Karen Blixen Museum and other regional museums.

GIRAFFE CENTER

The Giraffe Center was first opened in response to the endangered status of the Rothschild giraffe, the population of which had declined, reaching a low of 130 animals in the wild as a result of agricultural practices in their native habitat. Successful fundraising efforts secured monies to move four herds of these graceful animals to Lake Nakuru National Park, Nasalot Game Reserve, Mwea Game Reserve and Ruma National Park, and the success of these efforts has increased the population to over 500 individual giraffes in Kenya alone. The most exciting part of your tour visit to the Giraffe Center is the experience of seeing these animals up close and even feeding them! To raise awareness, the center provides free environmental education to young Kenyans and promotes conservation efforts of endangered species in Kenya. The Giraffe Center is open daily and the majority of your entrance fee goes toward supporting the important efforts of the organization.
